

旅游探访指数 - 复古机车之家

总分：4.0/5.0 (胡志明市深巷里的复古机车疗愈所)

1. 私密性与空间体验: 这是一座位于越南胡志明市高密度城区的管状住宅，面积约一百六十平方米。如果你有机会造访这座私宅，它将为你展现一种在喧闹都市中闹中取静的奇妙体验。入口处专门预留的前庭，原本是男主人停放复古踏板摩托车的专属空间，如今这成为了步入这段怀旧叙事的第一站。

2. 串联多代人的光影天井: 越南故事建筑团队没有采用常规的封闭楼板，而是设计了一道从底层厨房直通屋顶的中央挑空天井。当你身处其中，无论是走在走廊、推开卧室窗户还是站在阳台上，都能感受到这个贯穿上下的共享光井。它不仅将充足的自然光引入狭长的室内，更是将多代同堂的起居动态柔和地交织在一起。

3. 踏板摩托车美学与自然野趣: 在这里，你几乎找不到尖锐的直角。从建筑的外立面轮廓到室内的定制家具，所有线条都直接汲取了经典踏板摩托车的曼妙曲线。顶层的主卧是最不可错过的私密领地：不仅有一棵伴随这片土地生长多年的老芒果树与阳台相伴，卧室的门框更是被设计成了乡村小屋入口的模样，唤起了在越南乡野露营的自由记忆。

探访指南

- **最佳方式:** 强烈推荐你在清晨时分，推开顶层主卧那扇充满乡

野帐篷意趣的房门，坐在阳台上看着老芒果树的枝叶在微风中摇曳，感受这座素水泥与温润木材交织的建筑带来的平静。

- **看点:** 仔细品味建筑师对“疗愈空间”的深刻理解——看他们是如何在极度拥挤的城市缝隙中，利用弧形线条、垂直天井和穿插的绿植，为居住者打造出一个兼顾家庭联系与个人冥想的情感庇护所的。
- **项目周边顺带探访推荐:** 既然你来到了胡志明市，在体验了这座极具个人情感的管状住宅后，强烈建议你前往市中心的阮惠街咖啡公寓。那是一栋由老旧公寓楼改造而成的垂直商业综合体，密密麻麻的格子间里挤满了风格各异的独立咖啡馆和买手店，它与这座复古机车之家一样，都是越南年轻一代在拥挤城市中进行空间创新的绝佳样本。

一句话总结: 它以复古踏板摩托车的曼妙曲线为灵感，在胡志明市的拥挤街巷中，用一座贯穿上下的光影天井构筑了一个温暖治愈的家庭容器。

Travel & Visit Index - Vesp House

Total Score: 4.0/5.0 (A Retro Vespa Healing Sanctuary in the Deep Alleys of Ho Chi Minh City)

1. Privacy & Spatial Experience: Located in the densely built urban fabric of Ho Chi Minh City, Vietnam, this is a tube house covering approximately 160 square meters. If you have the opportunity to visit this private residence, it will present you with a wonderful experience of finding tranquility amidst the bustling metropolis. The specifically reserved front yard, originally designed as a dedicated space for the male owner to park his vintage Vespa, now serves as the first step into this nostalgic narrative.

2. A Light-Filled Atrium Connecting Generations: Story Architecture avoided conventional closed floor plates and instead designed a central atrium void that stretches from the ground-floor kitchen all the way through the roof. When you are inside, whether walking down the corridors, opening the bedroom windows, or standing on the balconies, you can feel this shared vertical light well. It not only draws abundant natural light deep into the narrow interior but also gently weaves together the daily dynamics of a multigenerational family.

3. Vespa Aesthetics and Natural Charm: You will hardly find any sharp right angles here. From the building's exterior

silhouette to the interior custom joinery, all lines are directly inspired by the graceful curves of the classic Vespa motorcycle. The master bedroom on the top floor is a private domain not to be missed: it is accompanied by an old mango tree that has grown on the site for years, and the door frame is modeled after a rural hut entrance, evoking the freedom and memories of camping in the Vietnamese countryside.

Visitor Guide

- **Best Way to Visit:** It is highly recommended that in the early morning, you open the door of the top-floor master bedroom that evokes a rustic tent, sit on the balcony watching the leaves of the old mango tree sway in the breeze, and feel the tranquility brought by this architecture woven from muted cement and warm timber.
- **Highlights:** Carefully savor the architect's profound understanding of a "healing space"—observe how they managed to carve out an emotional sanctuary that balances family connectivity and personal meditation in an extremely crowded urban gap, using curved lines, vertical atriums, and interspersed greenery.

- **Recommended Nearby Visit:** Since you are in Ho Chi Minh City, after experiencing this deeply personal tube house, it is highly recommended to visit the Cafe Apartment on Nguyen Hue Street in the city center. It is a vertical commercial complex transformed from an old apartment building, where dense grids are packed with various independent cafes and boutique shops. Much like this Vesp House, it serves as an excellent example of spatial innovation by the younger Vietnamese generation within a crowded city.

One-Sentence Summary: Inspired by the graceful curves of vintage Vespa motorcycles, it constructs a warm and healing family vessel within the crowded alleys of Ho Chi Minh City using a vertically penetrating atrium of light.
