

## 旅游探访指数 - 在水一方

总分：4.5/5.0 (金海湖畔的科幻波浪剧场)

### 1. 公共性与可达性:

- **全天候的城市绿丘:** 位于上海市奉贤新城金海湖东岸，这是一座完全对公众开放的多功能文化地标。建筑的下部是八座起伏的草坡，与环湖绿带无缝衔接，市民可以随时在这些“绿丘”上漫步、攀登，享受水岸风光。
- **丰富的科幻文旅体验:** 建筑内部被打造为“三体未来学院”及科幻主题体验馆，涵盖了水滴剧场、咖啡馆、阅读空间和展览等多元业态，是一个极具吸引力的公共活动目的地。

### 2. 空间与结构的波浪起伏:

- **连绵叠置的混凝土壳体:** 山水秀建筑事务所从波的形态中汲取灵感，联合结构团队采用了极具挑战性的预应力异形混凝土叠置壳结构。这种设计在内部创造了连续起伏的“穹洞”空间，在外部则呈现出层叠的巨大“波方”与“云朵”，模糊了室内外的物理界限。
- **暗区与亮区的交替:** 内部空间被分为暗区与亮区。穿梭其间，巨大的星体、科幻种子库以及下沉阅读区接踵而至，结合外部通透的玻璃幕墙，让人仿佛置身于降临在异星的飞船之中。

### 3. 漫游与眺望的体验:

- **环状空中步道:** 建筑外圈设有一条由桁架支撑的空中步道，动线呈数字八的形状。沿着步道行走，草坡与湖景交替出现，给参观者带来景深不尽的丰富身心体验，使整座建筑化身为湖畔的一方绿色波浪。

## 探访指南

- **最佳方式:** 推荐在周末前往奉贤新城金海湖。先在外部的草坡和空中步道上漫步俯瞰湖景，随后进入内部的科幻体验馆，感受水滴剧场和下沉阅读区带来的沉浸式空间魅力。
- **周边连线:** 建筑北侧紧邻奉贤区博物馆，您可以将这两座文化地标安排在同一天的行程中，体验从历史人文到未来科幻的时空穿梭。

**一句话总结:** 它将连绵的绿色波浪与科幻的混凝土穹洞交织在一起，在金海湖畔降落成一艘向所有人敞开的未来飞船。

## Travel & Visit Index - Wave Cube

**Total Score: 4.5/5.0 (A Sci-Fi Wave Theater by Jinhai Lake)**

### 1. Public & Accessibility

- **A 24/7 Urban Green Hill:** Located on the east bank of Jinhai Lake in Fengxian New City, Shanghai, this is a multi-functional cultural landmark fully open to the

public. The lower section consists of eight undulating grassy slopes that seamlessly connect with the lake's green belt, allowing citizens to stroll and climb these "green hills" at any time to enjoy the waterfront scenery.

- **Rich Sci-Fi Cultural Experience:** The interior functions as the "Three-Body Future Academy" and a sci-fi themed experience pavilion. Featuring the Water Drop Theater, cafes, reading spaces, and exhibitions, it is a highly attractive destination for public activities.

## 2. Waves of Space & Structure

- **Continuous Stacked Concrete Shells:** Inspired by the form of waves, Scenic Architecture Office, together with the structural team, employed a highly challenging pre-stressed concrete stacked shell structure. This design creates continuously undulating "dome caves" internally and layered massive "clouds" externally, blurring the physical boundaries between indoors and outdoors.
- **Alternating Dark and Light Zones:** The interior is divided into dark and light zones. Wandering through, massive celestial bodies, sci-fi seed banks, and sunken reading areas appear consecutively. Combined with the

exterior transparent glass curtain walls, it makes visitors feel as if they are inside a spaceship that has landed on an alien planet.

### **3. Experience of Roaming & Viewing**

- **Figure-8 Aerial Walkway:** The outer perimeter features a truss-supported aerial walkway structured in a figure-8 loop. Walking along this path, grassy slopes and lake views alternate, providing visitors with a rich physical and mental experience of endless depth, turning the entire building into a green wave by the lake.

### **Visitor Guide**

- **Best Way to Visit:** It is recommended to visit Jinhai Lake in Fengxian New City on a weekend. First, stroll along the exterior grassy slopes and the aerial walkway to overlook the lake, then enter the sci-fi experience pavilion to feel the immersive spatial charm of the Water Drop Theater and sunken reading areas.
- **Nearby Connections:** The building is adjacent to the Fengxian District Museum to the north. You can schedule both cultural landmarks in a single day trip, experiencing a journey from historical humanities to

futuristic sci-fi.

**One-Sentence Summary:** It intertwines continuous green waves with sci-fi concrete dome caves, landing by Jinhai Lake as a futuristic spaceship open to everyone.
